INTRODUCTION

Since its inception in 1993, the Sarawak Housing and Real Estate Developers' Association (SHEDA) headed by its dynamic Council Members, is fast being acknowledged as a proactive association with a vision.

Through its involvement in development in general and the building and construction industry in particular, it is already recognized as an official channel of communication on matters affecting these sectors. Its members from all corners of Sarawak are united in the belief that this association can play a vital role in the planning process and the execution of development plans to ensure that Sarawak will be ready for the future.

In recognition of the significant parts played by other on the attainment of the same objective, we therefore invite those involved on the building and construction industry to participate as **Associate Member** of Sarawak Housing Developers' Association (SHEDA).

OBJECTIVE

The main objective of the exercise is to establish an interactive network between developers and those who are directly or generally involved with the industry. The registration of these Associates will provide us with a database of those providing services, supplying material and supporting activities whilst our various programmes will facilitate personal interaction between our members and the Registered Associates to make the nexus even more cohesive.
